Important Information Regarding Relay New Mexico

Relay New Mexico:

Relay New Mexico is a public service that guarantees all citizens access to prompt, professional and precise communication through a telephone. Consumers of these specialized services, specifically individuals who are deaf, DeafBlind, hard of hearing or have difficulty speaking, can communicate on the telephone via TTY, Voice Carry Over (VCO), Hearing Carry Over (HCO), Speech-to-Speech (STS), Spanish and Captioned Telephone. This helps ensure the ability to connect with family, friends or businesses with ease.

How Relay New Mexico Works:

Dial 711 to connect with Relay New Mexico. A qualified Communication Assistant (CA) will ask for the area code and the number of the individual you wish to call before beginning to relay the conversation. The CA will voice the typed message from the text telephone (TTY) user to the person on the other end. The CA then relays the spoken words by typing them back to the TTY user.

Specialized Services:

Relay New Mexico offers specialized services for individuals who have difficulty speaking, including any Spanish speaking residents. Specially trained CAs are on hand to assist with these types of calls. Since Relay New Mexico offers a variety of services please refer to the website listed or contact Relay New Mexico Customer Care for more details.

Captioned Telephone:

A captioned telephone works like any other telephone with one essential difference: it allows users to listen to their phone conversations while reading captions of what is being said to them.

Access to Services:
